The State Credit,

The people of North Carolina thus early 4. All articles should be securely bagged, provements, to foster which the new debt well broken to stand to the halter. paralysis of an impaired State credit, and and directed to Gen.'l R. Ransom, Marthe disease, unless checked, will rapidly shal, C. F. A. A. at Wilmington. extend to all public and private business transactions. Once tarnish the good name of North Carolina, and its shadow will darken every business enterprise throughout the State.

Colonel WILLIAM JOHNSTON, President of the Atlantic, Tennessee and Ohio Railroad, to aid which corporation two millions of dollars of the bonds of the State were issued, has suspended operations upon that Road, as we learn from the Charlotte Observer, on account of the depressed condition of the bonds. He says: "With the bonds of the State selling at forty cents on the dollar, it appeared unwise and impolitic to press the market with them and add still further to the depression of the almost exhausted credit.'

Acting upon the same principle, President SLOAN, of the Wilmington, Charlotte and Rutherford Railroad, has actually declined to receive the appropriations of the State in aid of that Road, and its progress towards completion is limited to the receipts of the Road itself. The stockholders of the Road made many sacrifices in accepting the amendments to the charter, in order to obtain the appropriations, but from present appearances it would seem that the benefits are remote.

We would here call attention to the fact that notwithstanding the prudence of Presidents Johnston and Sloan, many of the honds of the State have been thrown upon the market regardless of their depreciated value. By an observation of the sales upon the New York Stock Board for several months past it is shown that North Carolina bonds have become the great speculative bonds of the Board. More exchange hands each day than those of any other total of all the States. Seldom a day goes | sued through the columns of the Raleigh by that one hundred thousand dollars of Standard really meant what it purported. In a fatal moment, Mr. Perry, the Super-North Carolina bonds are not sold.
